CAREER OBJECTIVE

Flutter developer with 4+ years of professional experience and 25+ apps successfully published on Google Play Store and Apple App Store. Passionate about clean architecture, intuitive UI/UX, and scalable state management. Seeking to leverage deep expertise in Flutter, Dart, Firebase, and RESTful APIs to contribute to a forward-thinking, collaborative engineering team.

KEY HIGHLIGHTS

25+ Apps Published on Play Store & App Store	4+ Years Professional Flutter Experience	4 Featured Projects on CodeCanyon	5+ Years in Mobile App Development
--	---	--	---

TECHNICAL SKILLS

Languages	Dart, C
Framework	Flutter
Architecture	MVC, MVVM, GetX CLI
State Management	GetX, BLoC
Databases	Firebase (Firestore / Realtime DB), MySQL, SQLite (sqflite)
APIs & Services	RESTful APIs, Push Notifications, Multiple Payment Gateways, Google Maps, Third-party APIs
Publishing	Google Play Store, Apple App Store Connect
Tools	Git, VS Code, Android Studio
Operating Systems	macOS, Linux
Paradigms	Object-Oriented Programming, Functional Programming
Soft Skills	Technical Training & Mentoring, Team Collaboration, Remote Work, Agile Development, Documentation

FEATURED PROJECTS

WorkZen – HRM & Payroll Management System with Mobile App

Streamline your people management with Workzen, the modern HRM solution designed for growing teams. Our intuitive platform replaces chaotic spreadsheets and disconnected apps, enhancing efficiency and boosting productivity through simplified daily tasks.

Tech: Flutter, Dart, Firebase, Finger print, Push Notifications, REST API, Multiple Payment Gateways

https://codecanyon.net/item/workzen-hrm-payroll-management-system-with-mobile-app/62472695?s_rank=1

InvoiceX – Billing & Invoice Management System

A full-featured invoice management application for businesses to generate, track, and manage invoices and payments with multi-gateway support.

Tech: Flutter, Dart, Firebase, ML feature, Push Notifications, REST API, Multiple Payment Gateways

<https://codecanyon.net/item/invoicex-billing-and-invoice-management-systems/52623729>

Zabi – Islamic Flutter App (Android & iOS)

A comprehensive daily-life companion for Muslims featuring prayer times, Quran with multiple translations, Hadith, Dua, Dhikr, nearby mosque finder, donation features, and Google Maps integration.

Tech: Flutter, Dart, Firebase, AI implementation, Push Notifications, REST API, Google Maps, Nearby Search, Third-party APIs

EMPLOYMENT HISTORY

Senior Flutter Developer • Theme29

Mar 2025 – Present

CodeCanyon-based company (Running)

- Solely responsible for all Flutter projects — handling architecture, UI/UX design, development, testing, and deployment end-to-end.
- Design and build high-quality Flutter app templates and full projects published on Envato CodeCanyon.

- Independently manage Play Store and App Store publication for all products.
- Provide buyer support, technical documentation, and continuous updates for all published items.

Flutter Developer • Creative Distribution UK Ltd.

Jan 2022 – Mar 2025

Gillian House, Stephenson Street, E16 4SA, UK (Remote • 3 years 2 months)

- Designed, built, and maintained high-quality Flutter applications for iOS and Android.
- Wrote clean, maintainable, and well-documented Dart code following best practices.
- Participated in the full development lifecycle — from requirements and architecture to deployment.
- Identified, diagnosed, and resolved bugs across active production apps.
- Researched and evaluated emerging technologies to continuously improve the product stack.
- Collaborated cross-functionally in an Agile, remote-first team environment.

Project Coordinator • Dotcom System Ltd.

Jul 2020 – Dec 2021

Uttara Road, Karwan Bazar, Dhaka (1 year 6 months)

- Managed and maintained the Flutter mobile app development training programme.
- Created structured technical documentation, lesson plans, and progress reports.
- Supported and mentored students through hands-on Flutter training and backup classes.
- Provided technical support and troubleshooting assistance to trainees and staff.
- Collaborated with instructors and management to ensure smooth course delivery.

EDUCATION

Diploma in Engineering • Faridpur Polytechnic

Institute

Faridpur, Bangladesh

Passed 2018

B.Sc. in Computer Science & Engineering •

Dhaka International University (DIU)

Dhaka, Bangladesh

2019 – Incomplete
